The smart choice for the road ahead.

Progressive, powerful and uncompromising, the updated Tiguan Allspace redefines what's possible in an SUV. In our quest for uncompromising functionality, our sporty SUV just got a whole lot smarter, powered by IQ.DRIVE technology. With the Tiguan Allspace, you don't just drive the road - you own it.

Welcome to the #SUVW family

The latest generation Tiguan Allspace comes with a new suite of modern upgrades. Featuring a refreshed exterior design, the Tiguan Allspace is poised to strengthen its position as the best-selling Volkswagen SUV worldwide, with more than 6 million units sold to date. More than just design and technology, it's an SUVW.

Exterior.

Great sense of style.

The facelift design sports a bold radiator grille and sleek headlights, with the signature LED illuminated strip in between. The Tiguan Allspace R-Line is sporty and bold. From the black R-Line rear spoiler, front and rear bumper, front door trim panels to the front door scuff plates, it is set to stand out in any crowd.

Performance.

Hit the road, any road.

Built for new adventures. The R-Line has a powerful 2.0TSI engine that promises exhilaration wherever you go. With 220PS, 350Nm of torque and a 4MOTION all-wheel drive, you can take the wheel and conquer the road.

Adapt to your preferred driving mood and needs by selecting between Eco, Comfort, Normal, Sport and Individual mode.

The R-Line also comes with Dynamic Chassis Control which helps you adjust your driving experience by modifying the suspension for each of the vehicle's wheels, plus an additional Off-Road Profile for better control and handling.

Interior.

Comes with loads of fun.

You have full freedom to utilise the generous space available on this 7-seater. Thanks to the flexible fold-down seats and additional third row seats, the Tiguan Allspace can be adapted to any situation — it's as versatile as you need it to be.

Cool, calm, collected.

Offering comfort and convenience, the Tiguan Allspace is best of both worlds. It comes equipped with 3-zone Climatronic air conditioning, 12-way driver electric seat adjustment with powered lumbar support and massage function.

Feel right at home.

Haptic-touch air con controls allow for seamless temperature adjustment, while the Active Climate front seats, with power-adjustable lumbar support are tuned for your ultimate comfort.

Seamless, and sophisticated.

The 9.2" Discover Pro infotainment system has all the information you need, from Driving Mode Selection, 3D navigation, seamless media playing, driver assistance systems and more. Stay connected, conveniently.

Safety.

The car that cares for safety.

The Tiguan Allspace R-Line is fitted with 7 airbags, an Automatic Post Collision Braking System, Driver Alert system with fatigue detection, anti-theft alarm systems, and advanced Electronic Differential Lock (XDS) linked to a sophisticated Electronic Stability Control (ESC) system.

Using an advanced radar system, Lane Assist warns you when you start to drift into another lane.

A sensor controlled electric tailgate system that opens and closes the tailgate with a sweep of your foot.

Front Assist.

Alerting you before a collision

Even when we're driving at our best, we still need to keep an eye out to avoid accidents with other cars or pedestrians in front of us. Thankfully, the IQ.DRIVE technology monitors the road ahead with the ability to help brake on its own. It will first provide audio and visual alerts when you're driving at higher speeds and at risk of potential collision. Then, if necessary, it will automatically apply brakes to help mitigate or avoid a collision.

Adaptive Cruise Control (ACC).

Going with the flow made more stress-free

When the road gets busy, IQ.DRIVE can help keep things cruising. When dealing with traffic on the highway, it uses sensors to detect vehicles ahead of you, helping adjust your speed, and manages the distance between you and what's in front of you, adapting to the situation you're in.

Lane Assist.

Helping you stay between the lines for the long haul

No matter what kind of road you're driving on, if you're 56 km/h or faster, IQ.DRIVE can help keep you from going over the lines. If your vehicle begins to drift without your turn signal on, IQ.DRIVE can warn you and counter steer when activated to help ensure you stay in your lane.

Side Assist.

Helping steer you clear of the things you might not see

When you're focused on the journey ahead, your vehicle's IQ.DRIVE technologies can help by alerting you when another vehicle may be hiding in your blind spots and helping counter-steer when necessary.

Safe, high quality parts tuned to your Volkswagen

Volkswagen Cares App

We are committed to care and provide the best for Volkswagen customers. More than just a loyalty program, Volkswagen Cares applies on all levels and embodies how we interact, engage, and serve our customers better. Customers may also download the Volkswagen Cares mobile application, an aftersales-led initiative to continuously improve the ownership experience. The mobile app comes with a list of features related to both sales and aftersales, including service offers, owner rewards, educational videos and tips event updates, and 24-hours' roadside assistance - all at the touch of a button.

Volkswagen Loyalty Advantage (VLA)

Being part of the Volkswagen family comes with rewards. From your 4th scheduled service onwards, enjoy up to 40% savings on genuine parts to keep your Volkswagen in top condition. Plus, drive with peace of mind knowing that all genuine parts are covered by a 2-year unlimited mileage warranty. Speak to our service advisors at your preferred Volkswagen service centre to learn more.

Body & Paint

Safe and strong: Volkswagen Genuine Body Parts give your Volkswagen the necessary stability and offer you the best possible protection in the event of an impact. As we have developed all parts especially for your original, they fit like a glove. The result: You save time and costs in any repair and your Volkswagen remains an original through and through. Best of all, our paint and workmanship comes with 2 years warranty for peace of mind.

24-hour Roadside Assistance

When your Volkswagen has a breakdown, our 24-hour roadside assistance service team is readily available to help you with the following services:

1. Tow assistance and recovery to the nearest Volkswagen service centre. For security reasons, towing service will not be provided to an unattended vehicle.
2. Emergency telephone call to family or friend of the Volkswagen driver.
3. Battery jump start. If your vehicle cannot be driven safely, towing services will be provided.
4. Flat-tyre change (if spare tyre is available) in a safe environment. Otherwise, towing service will be provided.
